Nevada City Nugget

VOLUME V, NUMBER 36 THE GOLD CENTER THE NEVADA CITY NUGGET, CALIFORNIA THE COUNTY SEAT PAPER FRIDAY, SEPT. 11, 1931

DUTTON AND SMITH TAKE OVER BIGELOW MINE

Messrs. Fred T. Smith and M. C. Dutton of Beverley Hills have purchased under bond and lease the well known Bigelow Mine of the Sierra City District. On this mine the second largest gold nugget ever found in California was found weighing 106 pounds and netting over $21,000.

The property is well equipped with a new ten stamp mill operated by water power. Large bodies of low grade ore have been developed by the late owner, W. H. Martin, and it is the plan of the presnt operators to make additions to the mill to conserve all the values found in the sulphide ores.

The Bigelow Mine adjoins the famous Sierra Buttte Mines which is classed as one of the largest and most consistent producers of the precious metal in California, its record beginning with its discovery in the early fifties and continuing to the present day as new developments are continually maintained. This mine is credited with having paid over $16,000,000 in dividends to the stockholders.

The Morrison tunnel one of the several developments on the Ariel vein of the Sierra Buttes and Bigelow Mines is credited with a production of over $30,000 from a 45 foot tunnel. This tunnel is above the present workings and is part of the Bigelow holdings which consist of over 75 acres with mill site.

The mill is located immediately adjoining the townsite of Sierra City and near the state highway.

BLANCHARD IS WORKING ON RAMSHORN CREEK

Francis Blanchard is working 3 quartz claims on Ramshorn Creek just above the Silver Tip property, owned by J. E. Kretz and T. E. Davis.

One tunnel is in between 75 and 80 feet, while another one is in 150 feet. There is a 47 foot shaft which shows good values. The 75 foot tunnel is being run to tap this shaft.

Mr. Blanchard has struck a 4 foot ledge in which gold shows to the naked eye.

RODEO AT PEARDALE WILL DRAW CROWDS

The Chicago Farm Center has a very progressive group of citizens, who each year try to feature something interesting to draw crowds to their attractive district.

Nevada County, while not especially linked with the extensive cattle ranges is none the less a county that is "horse wise" and can vaquero sentimental. Out at Peardale where a man's interests are pears first and horses second, there are numerous good riders who have fought bucking horses and tagled with snorting bulls in dogging contests. Sunday the thrill loving crowds of this section will be given the opportunity of seeing some of these horse men in action.

Sunday's program consists of bronco riding ,steer roping, steer riding, bull dogging ,trick riding, and fancy horesmanship.

A barbacue will be one of the big features.

A descriptive parade will be given on Saturday eve in Grass Valley with a dance following at Twin Cities Pleasure Hall.

MINING PERSONALS

Mr. Nightengale, superintendent of the Kirkpatrick mine was a Nevada City visitor Friday. He is a native of this section, but spent 30 years of his mining carrer in Alaska gold mines. He has been in charge of the Kirkpatrick for six years.

Tom Marshall of the Colombo mine near Sierra City was in town early in the week.

Archie Scott, mining man of Oakland, who is interested in mines in the Willow Valley District, is in Nevada City looking over his interests.

BRIGHT FUTURE IN STORE FOR SIERRA CITY MINES

Several old mines are being opened up in this district and it is expected that considerable activity will be apparent before the winter months.

Mr. Webber and associates of Long Beach have purchased the Northern Belle claims located near Loganville and adjoins the Margarita and the Keystone Mines which were famous early day producers. Mr. Webber reports assays running as high as $280 per ton.

A small mill is being installed on the Kentucky Mine also located near the Sierra Buttes Mines.

M. C. Dutton and Fred T. Smith of Beverley Hills spent several days in the district and have taken over the well known Bigelow Mine adjoining the townsite of Sierra City, and the Sierra Buttes Mines. This mine is equipped with a new mill operated by water power. Here tne fabously rich Monumental Mine produced, the second largest nugget ever found in the state. It was valued at $66,000. This nugget was found at a cornerstone on the Monumental Mine property that adjoins the Biglow property.

The late W. H. Martin purchased the property just after the big fire and earthquake in San Francisco. Mrs. W. H. Martin has just disposed of the property to the new owners.

Messrs. M. C. Dutton and Fred T. Smith expect to begin a campaign of development within a few weeks.

Engineers have been looking over the old Monarch Mine, considering the purchase of this large property which includes 40 claims and a mill. This property is well covered with desirable timber. Past production is said to have exceeded $500,000.

Frank Kervin is preparing to take in supplies to operate his hydraulic mine back of Lady's Canyon.

NIGHTENGALE LEASES OLD SCOTT PROPERTY

Mr. Nightengale has taken a lease and option on a piece of placer property belonging to the Scott family of Downieville. It is situated on Poker Flat near Howland Flat in Sierra County. It can be reached only by foot or horseback as no road were ever built to that section.

He has let a contract to run a 1,000 foot tunnel. According to plans at present work will be carried on through the winter.

Mr. Nightengale stated that prospecting shows the property to be one of the best chances in the State. On the opposite side of the canyon a gravel channel exists that is rich, and evidently from the description given us by Mr. Nightengale, the ancient channel divided higher up, part going each way.

Mr. Scott father of present owners, run the tunnel in 1000 feet, while later the boys run it ahead 400 feet. It is figured that another 1000 feet will hit the rich gravel they are seeking.

INDIAN HILL MINE HAS CREW MEN WORKING

The Indian Hill Mine is working a crew of 12 men. The sawmill is busy cutting timber for the mine, ditches, flumes and reservoirs are all being cleaned up preparatory to making taking advantage of the first rains this fall.

This is an old property which has been taken over by San Francisco interests.

Fred Joubert is superintendent at the mine.

EDITORS ENJOY THE PRESS DINNER SATURDAY

Governor Rolph presided at the Annual Dinner of the California Press, which is held each year on the first Saturday of the State Fair. Henry M Argall, E. G. Kenyon of the Mornnig Union and Elsie P. Willoughby of The Nevada City Nugget attended, also M. T. Ayres of the Downieville Messenger.

Besides the press people there wre the State Fair Directors exgovernor Richardson, and Lieutenant Governor Frank Merriam.

GOVERNOR'S WATER CONSERVATION PLAN

During the flying trips from one part of the state to the other Governor Rolph has been shocked by the lack of water supply. tI was brought forceably to his mind that if the State of California is to endure as one of the mining states in the union something drastic must be done. Not wishing to go about the matter in a haphazard way he apponited a California Water Resource Commission composed of: Hon. Matt I Sullivan ,chairman, Former Chief Justice of Superme Court of California, aSn Francisci, D. K. Barnell, Merced, J. M. Burke, Visalia, Francis Carr, Redding, Shannon Crandall, Los Angeles, R. C. Harbison, San Bernardino, W. B. Mathews, Los Angeles ,Jesse Poundstone, Grimes, and A. B. Tarpey, Fresno. The exofficio members to aid the Commission are: A. M .Barton, Chief Engineer, State Reclamation Board, Walter E. Garrison, Director of Public Works, Edward Hyatt, State Engineer, Edward Rainey, Superintendent of Banks, Rolland A. Vandegrift, Director of Finance, and U. S. Webb, Attorney General. A joint eLgislative Water Resources Committee composed of Senator B. S. Crittenden, Chairman, San Joaquin County, Assemblyman Robert P. Easley, Vice Chairman, Antioch, oCntra Costa County, Assemblyman Robert L. Patterson, Secretary, Bakersfield, eKrn County, Senator C C. Baker, Salinas, Monterey County Senator Ralph H. Clock, Long Beach, Los Angeles Co., Senator F. W. Mixter, Exeter, Tulare Co., Senator W. P. Rich, Marysville, Yuba Co., Senator Andrew R. Schottky, Merced Co., Senator Ralph Swing, San Bernardino Co., Assemblyman Edward Craig, Brea, Orange Co., Assemblman Harold C. Cloudman, Berkeley, Alameda Co., Assemblyman John E. Frazier, Gridley Butte Co., Assemblyman Frank S. Israel, Linden, San Joaquin Co., and Chester Kline, San Jacinto, Riverside Co.

He also appointed 17 Honorary Advisory Committees. These include former ogvernors of California, U. S Congressional Representatives of California, County Supervisors, Women of California, Agriculture, State Bar, State Chamber of Commerce ,Engineers Finance, Irrigation and Reclamation Districts, Labor, State Press, and Public Utilities.

Nevada County is represented in the Committee by Congressman Harry L. Englebright ,R. A. Eddy, Supervisor, William Durbrow, Irrigation District and Elsie P. Willoughby of the State Press.

The matter is of special interest to the mining industry. The matter is brought out in a resoltuion which was proposed by the attirney for the Mining Association of California at the meeting of the Directors of that body on Augsut 8, 1931. The resolution is as oflows:

"Resolved, that in any water plan involving the construction of dams on any stream in California that every such dam shall be designated as a restraining dam in any constitutional amendment and anystatute adopted."

However, the Mining Association needs to do more than that and should put ofrth their concrete effort and have a definite plan to present to the Water Commission.

STATEWIDE WATER PLAN IS TO BE DISCUSSED

The Statewide Water Plan and its relationship to Water Conservation in the mountain counties will be discussed at a meeting to be held at the Calaveras Cement Company Plant, at San Andreas, Thursday, September 17th, at 12 o'clock noon. The meeting will be held under the auspices of the Executive Committee of the Central Valley Council of the State Chamber of Commerce and will be presided over by Mr. Charles H. Segerstrom, Regional Director.

The Regional Sub-Committees of the State Chamber of Commerce are endeavoring to ascertain if possible, points of agreement in the State Plan, believing that once these points have been determined, further basis for the development of a co-ordinative plan can be brought about. It is not the purpose of this meeting to make recommendations for or against the engineering plan, but rather, to see if some co-ordinat-

Mr. Fricot, leader in mountain counties development, states, "There are still some of the most important phases of the State Plan to be developed which include legislative, financial and economic and no action should be taken until the complete proposal has been submitted and thoroughly studied."

Oragnizations in Amador, El Dorado, Placer, Nevada, Mariposa and Tuolumne Counties have been asked to send delegates to the meeting. A representative of the State Engineer's Office will be in attendance to explain the engineering plan and to answer questions of the dlgats.

STANDARD MINE IS WORKING CREW MEN

The Standard Mine is situated about five miles above Downieville.

A tunnel has been run about 1000 feet and ore is being stoped for milling.

The property has been shut down and is just getting under headway in fine shape to make the mine a real producer.

Mr. aHrtford Frye is in charge of the property and has laid out plans for a lot od development work this winter

Six men are employed.

TRIPLE POCKET HAS A SATISFACTORY CLEANUP

The first clean-up at the Triple Pocket Mine was made last week, and Addison Brown, owner of the property, expresses himself as satisfied with the run. Due to the unusually low water in Slug Canyon, the mill has been operated only four hours a day, so the recent clean-up represents but about forty hours crushing.

The south drift from the main shaft is in about 240 feet on a four-foot vein and three shoots have been cut. Brown declares that the mine shows ore sufficient for a year's milling without further development. With adequate water for steady milling the Triple Pocket is certain to become one of the county's dependable producers.

The Bulletin Board

HUNTING NOT FORBIDDEN IN FOREST AREAS

Only the most hazardous fire areas in California National forests will be kept closed to hunting during the hunting season which begins September 16th. This was announced by Regional Forester S. B. Show.

Show added that this statement may be modified or cancelled if adverse weather should prove critical later. He said the forest service intends to leave the forests open to hunting insofar as possible trusting to the co-operation of the hunting public.

All national forests except certain parts of Mono and Inyo are closed to smoking except in camps or places of habitation, and each automobile or pack train is required to carry a shovel and ax. The only closure made on account of hunter fires was in the Cuyama area on the Santa Barbara National Forest.

The northeastern slope of the Sierra Madre range on the Santa Barbara Forest, Pine Mountain on the north to Rancho Neuvo Creek on the south; **that portion of the Warner Mountains in the Modoc lying between the southern end of Goose Lake and the north central part of Upper Lake; the BLUE CANYON areas on the SIERRA; five areas on the San Bernardino and part of the Shasta adjacent to Game Refuge 1-3.**

Hunters entering National Forests are advised to get in touch with local forest officers who will direct them to the areas open to hunting.

WIDE AWAKE MINE SOON TO START OPERATING

Frank Maloney writes from New York that a crew of men will soon be started on the Wide Awake placer mine. This mine is one of the units of the California-Juneau Mining Co., Ltd., a recently-formed New York corporation. The Wide Awake is an old mine, and said to have been very rich where gravel was reached, but the old works are said to have been driven too high to drain the channel and allow continued mining. The mine was last operated by the late Antone Peckwith, of this place. Peckwith spent considerable money on the mine and had succeeded in building a modern plant when his death stopped operations. Maloney took over the property about one year ago.

N I D IN REFINANCE PLANS FOR FUTURE

An election will be held next Monday, Sept. 14th in the offices of the Nevada Irrigation Districts offices.

They will vote on a number of important suestions that have been brought up in regards to refinancing the district.

This is one of the most important issues to come before the people of the county in several decades and should be attended by every person interested in or holding property in the district.

BLUES AND TIGERS TO PLAY PEARDALE RODEO

The "Tigers", a baseball team composed of the Foresters of Nevada City, will play the Nevada City Blues at the Peardale Rodeo next Sunday.

Manager Ed Davey of the Blues will put a strong line-up on the field Sunday, Marvin Hart, former Nevada City boy, who has played semi-pro ball all summer will be in the line up and will add to the strength of the Blue's infield, as he will be at short.

SEVERE FROST VISITS THE YARDS AND GARDENS OF MANY

Tuesday off, in addition to the regumade its appearance Tuesday morning and as a result flower and vegetable gardens in various parts of the city were more or less damaged.

White frost coated the Plaza and Galt bridge and streets leading to them.

Last week Albert and Antone Buck of Orleans Flat delivered a choice lot of calves to a Grass Valley meat market.

STATE FAIR EXHIBIT WINS MANY PRIZES

Nevada County was awarded first prize on lode gold ores at the State Fair as a result of the quartz exhibit being from going mines. The county also took 3rd prize for placer gold.

W. H. Griffith had a display of ores and metals from Nevada County mines which claim a payroll of $2,000,000.

The Empire and North tSar mines, old producers are being run to capacity and had pieces of ore in the exhibit. The Murchie Mine, near Nevada City, had a piece of interesting ore also. The old Idaho-Maryltnd is still able to furnish a sample of rock that held the attention of experts, while the Empress, located at Newtown and now being de-developed after several years of idleness had its part in the display.

Other working properties represented in the exhibit were the Hoge, a new mine being operated by A. W. Hoge and associates; the Spanish Mine, on which thousands of dollars have been spent in development recently; the Boundary Mine, operated by Mayor Michael Brock of Grass Valley and associates; The Golden Center on which sinking operations have been started; and the Constitution, managed by J. M Hoff and associates.

An oil flotation plant is being constructed on the Constitution and operatons are being rushed.

A safe was used in this exhibit to house the nugget display.

A number of awards were made in the fruit exhibit which are as follows:

Pears: Six first prizes; 2 second prizes; 4 third prizes; first for plate display; third for sweepstake.

Apples: Two first prizes; 7 second prizes; first on plate display. Tied with Contra Costa county for sweepstake.

Peaches: One second prize; 1 third prize.

Nectarines: One third prize.

Plums: Two second prizes; 1 third prize.

Madlais: First prize.

As a result of these exhibits notably, as assembled by E. A. Breckenridge, the county has been included ina select list of ten counties having outstanding exhibits. The distinction carries a prize in the firm of a slver vase.

aCsh awards so far received will yield nearly $400 to the Treasury of the county and will offset a portion of the expenses of placing the exhibit before the public at the State Fair.

MINING ENGINEERS TO HAVE FIELD MEETING

The San Francisco Section of the American Institute of Mining and Metallurgical Engineers has arranged a technical field meeting which will be held in the Grass Valley-Nevada City Gold Mining District of California on September 12th, 1931. Events have been arranged for the entire day consisting of underground trips and observation of surface plant equipment at the following gold mines; EMPIRE NORTH STAR MINES, IDAHO-MARYLAND, MURCHIE and HOGE

In the evening a dinner at the Empire Country Club, Grass Valley, will be served to all members and their guests, following which a technical program will be given as follows:

SEPTEMBER 12, 1931

9:30 a. m.—Arrive Grass Valley. Headquarters, Bret Harte Hotel, Grass Valley. The National Hotel at Nevada City will also welcome those who attend.

10:00-12:00 a. m.—Inspection of surface operations at EMPIRE STAR Mines Company plant.

12:30-1:30 p. m. — Luncheon. Make your own arrangements.

2:00-4:00 p. m. — Underground tripat EMPIRE-NORTH STAR Mines. Be sure to bring your own "Digging Clothes" if you plan to go underground.

Additional arrangements have been made for those in attendance to visit the underground workings of the MURCHIE, IDAHO-MARYLAND and HOGE Mines.

Note:—If you wish to go underground at the IDAHO-MARYLAND

(Contnued on Page Five)

DEVELOPMENT UNDER WAY IN VARIOUS AREAS

Victory Mines, Inc., is preparing for extensive placering in its Bull Pine property, in the Klamath River field of Siskiyou County, Cal. This is according to Reno officials of the corporation. The addition of a generator and other equipment to the plant on the ground, is scheduled to start shortly. The management states a substantial deposit testing around $1 per cubic yard has been demonstrated. Several ledges carrying gold have also been intersected by the 120-foot tunnel.

Silver Pick Consolidated Company, one of the early operating concerns at Goldfield, is working the Glenn placer mine near Michigan Bluff, Cal., and is planning early production. The property is eaid to extend for three miles along an important channel, with about 800 feet of the deposit opened for production.

A rich find in the Centennial-Conrad mine of the Paramount Gold Mines Corporation, two and one-half miles southwest of Auburn, Cal., has been verified by a Reno officer of the company. A drift from the winze sunk below the 350-foot level isclaimed to have locateo a strong vein of milling ore, containing a one-inch streak of specimen quartz. Work is being rushed to determine the extent of the discovery.

The Paramount Gold Corporation is operating the Big Oak Mine, near Colfax, Calif., and controls the Red Stone in the Blue Canyon section and other holdings. A small mill is running setdily at the Big Oak, with the ore officially said to sample $20 to $25 per tin. E. C. Klinker of Colfax is president.

Vigorous development of the historic Sunshine placers, tributary to Quincy, Cal., has been undertaken by J. L. Harper and associates of Los Angeles, according to information received in Reno. It is reported the entire fliw of a creek is to be diverted to the deposits by means of a ditch and flume line, more than a mile long. This will supplement the water supply developed many years ago. The Sunshine, for many years, produced a large amount of gold and was held by the same owners for 40 years.

Official of the Walker Mining Company have denied rumors that the Walker mine at Spring Garden, Plumas County, Calif., is to close down. The offical statement asserts work will be continued throughout th eWinter and the full force of 430 men retainel. The Walker is one of the profitable powerful Anaconda Copper Company.

SHASTA GOSSAN PLANT WORK IS BEING RUSHED

The three Vickery Brothers are pushing work on the Golinsky mines four miles from Kennet. They are work the gossan, of which there is a great deposit.

The three have completed a ball mill erected bunkhouses, cook house, warehouse and ither buildings and are still to erect a cyanide plant and bunkers.

PERSONALS

Mr. and Mrs| R. W. Gaylord and daughters, Betty and Hermine, of Sacramento, spent the week end at Gaycrest, which is situated on the Town Talk ridge.

Mrs. F. F. Breese has returned from a visit with relatives in San Francisco.

Mr. and Mrs. Robert Searls and children of San Francisco spent the week end in Nevada City.

Mrs. Anna Tucker had as weekend visitors, her son, Gene, and wife of Reno, Nevada.

Mr. and Mrs. Gluyas Richards and daughters of Auburn, visited relatives in Nevada City during the past week end.

Mrs. M. Grimes had as a viistor her granddaughter ,Miss Lynette Grimes of Oakland.

Dr. Aarin A. Arbogast of San Francisco visited relatives here during the week end holiday.

Miss Frances Davey who has been visiting here parents, Mr. and Mrs. Harry Davey, over the week end returned to Berkeley early this week.

Mr. and Mrs. E. M. Rector accompanied by their daughter, Margaret, are in the bay region. Miss Rector will enter Mills College.

Mrs. Strandberg has had as a recent visitor her sister, Mrs. George H. B. Wright of Berkeley.

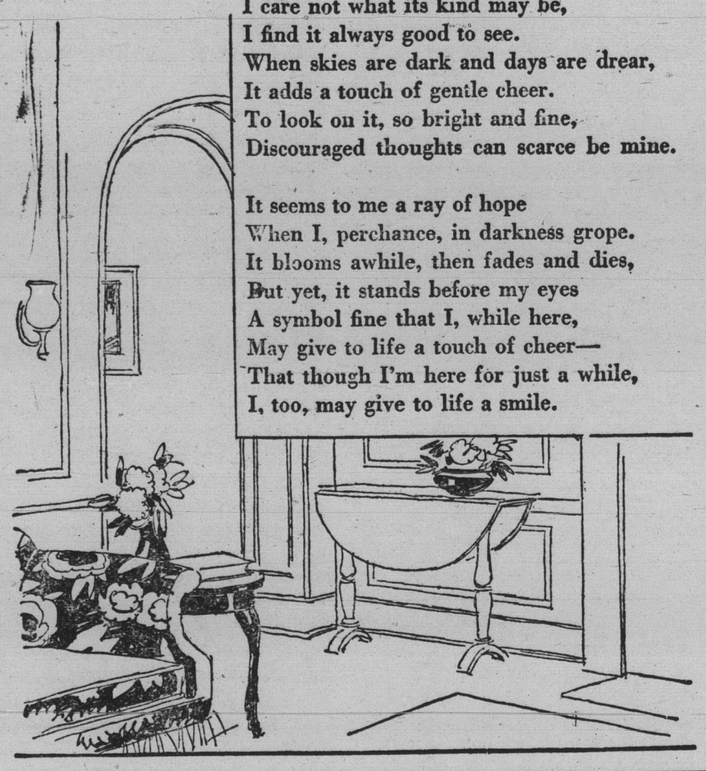

Mrs. S. Lee Leiter, who has been in Jones Memorial hospital for some time, has gone to San Francisco to remain for a time for the benefit of her health.

Mr. and Mrs. Milton Kiefer attended the State Fair this week. They were accompanied by her parents, Mr. and Mrs. S. S. Trevethick.

You and I

By CHARLES S. KINNISON

THE LIVING-ROOM FLOWER

I like the fragrant cheerful bloom
Of flowers in my living-room.
I care not what its kind may be,
I find it always good to see.
When skies are dark and days are drear,
It adds a touch of gentle cheer.
To look on it, so bright and fine,
Discouraged thoughts can scarce be mine.

It seems to me a ray of hope
When I, perchance, in darkness grope.
It blooms awhile, then fades and dies,
But yet, it stands before my eyes
A symbol fine that I, while here,
May give to life a touch of cheer—
That though I'm here for just a while,
I, too, may give to life a smile.

NEAR FATALITY AT THE HONEYCOMB MINE

Lew Rose while trying to open the gas line on the compressor engine at the Honey Comb mine got is clothing soaked with gasoline and the carbide lamp set fire to them.

Fred Butz who was passing by, rushed to Mr. Rose's aid and put out the fire on his clothes. It spread to the woods and burned over about five acres of timber before the forest service crew arrived and put it under control.

The mine is owned and operated by Frank Pendola.

N. C. N. G. R. R. COMPANY TIME TABLE

Effective Sunday, May 3, 1931

Trains leave Nevada City at 4:45 a. m., Grass Valley 5:05 a. m., arriving at San Francisco 1:30 p. m.

Trains leave Nevada City at 10:20 a. m., Grass Valley 10:40 a. m., making direct connection with S. P. train No. 19, arriving at San Francisco 5:10 p. m.

Train leaves Nevada City at 3:05 p. m., Grass Valley at 3:30 p. m., daily except Sunday, making connection with S. P. train No. 20, leaving San Francisco at 11:20 a. m., enabling passengers to arrive at Grass Valley 6:15 p. m., and Nevada City 6:35 p. m., daily except Sunday.

Train No. 534 leaving Sacramento at 10:40 a. m., arrives at Grass Valley at 2:10 p, m., and Nevada City 2:30 p. m.

NOTICE

From now on the Colfax Bakery will supply their products te the Sacramento Street Grocery, Nevada City, California.

ANGELINI CICOGNI, Prop.

CITY OF SIX PROGRESSING NICELY WITH WORK

A. E. Hodgkinson, owner of the famous City of Six Mine near Downieville, has 8 men employed in the 1000 foot tunnel. They are taking out a lot of fine ore which they are milling.

A recent strike of very rich ore was made at this property.

The lat big benefit dance of the season is billed to take place Saturday evening, Sept. 19th, at which time a crowd from the surrounding country is expecteh to be present. The committee had acquired the well known Meltz Orchestra, and so advertised, but recently this music has had to move away, and in its place a fine orchestra from Grass Valley, formerly conducted by Bandmaster Harold George has been obtained, and the latest and most excellent music is promised for the affair. The usual good supper will be served at midnight, and a general good time is promised.

The date comes shortly after the opening of the deer season, and it is expected that a large number of former residents who always come back to their old home for the hunting season will be present and make this an occasion to meet their fany old friends.

The proceeds from this dance will go to finish paying for the repairs of the building which have been made this season. The usual price will be charged.

Chester U. Hanson, of Wenetchee, Washington, accompanied by a friend left Monday for San Francisco ,after spending a few days visiting his parents here.

Mr. and Mrs. Garfield Robson of Grass Valley accompanied by Rev. Robbins and party of Oakland were in town Monday on a brief visit.

Miss Mabel Hopkins who spent the past week visiting Miss Lesta H. Joubert left Tuesday for her home at the bay.

William J. Scanlon who is mining near Indian Hill left a few days ago for San Francisco.

James L. Joubert left Monday for Sacramento to resufe his studies at the Sacramento High School after a visit here with relatives.

A forest fire started near the Quail Ranch in Slate Range Tuesday morning but was quickly put under control and extinguished by Forest Ranger Frank W. Meggers with a small crew of men.

Frank Pendola and Lew Rose motored to the lower country Tuesday.

rMs. F. S. Labadie and Miss Lola Labadie motored to Sacramento.

Charles Wilson, Jr., left Monday for Sacramento to resume his studies in the high school there after a visit with relatives in this section.

Misses Lesta Joubert and Helen Jackson fotored to Auburn Tuesday

Mr. and Mrs. B. F. McNaught and eJan Howard motored to Downieville Tuesday.

Wm. Kessler of Maryville was in town Tuesday.

Jack Kennedy made a trip to the Yellow aJcket Mine near Allegany Tuesday with a load of lumber.

Julius E. Pauly motored to La Porte oMnday on a business trip.

Mrs. Mm. O. Grant returned Monday from Sacramento where she spent a few days visiting her daughter.

Miss Lola Labadie and Mrs. John Labalie of Browns aVlley visited relatives at Hotel Francis oMnday.

eLw Woods and Hawley Chatfield of te Altaview Mine passed through town Tuesday enroute to the lower country.

Miss Elsie Price, deputy superintendent of school of Plumas county left Wednesday for Quincy after spending a few days visiting her parents here.

Thomas J. aBker, Grand Lecturer of the Masonic Order of California, left Friday for Sacramento after holding a school of instruction for this Masonic District at the Masonic hall Thursday evening.

Mr. and rMs. Acton Cleveland returned Friday after a few days visit at Sacramento.

Miss Laura ePndola and mother, rMs. Katherine ePndola motored to Nevada iCty Friday on a short visit.

Charles Greene of Grass Valley was a business visitor in town Friday.

The Indian Hill Mine recently purchased a new truck from the Grass Valley Garage.

William William and party of Oakland spent the holidays visiting their old home here.

Robert Phillips and family of Modesto spent the week end visiting his sister, Mrs. Grace Peterson.

Miss Lydia Groves motored to Grass Valley Thursday on a short business visit.

Mr. and Mrs. Eugene Hays left Saturday for a week end trip to the Lakes.

Charles C .Beck arrived Saturday from Oakland to spend a couple of weeks vacation at the oJubert home at Oak Valley.

Lee Bullington put in a new bridge on little Oregon Creek Sunday.

Jack Kennady motored to Nevada City Friday with a load of lumber.

Mrs. Vivian Long and sons and Myron and Katherine Pauley arrived aSturday from Oakland to spend the week end.

Julius E. Pauly motored to Marysville Saturday.

Alfred J. Heether motored to Nevada City Saturday on business.

Mr. and rMs. Elwood Schuur returned Saturday from a short visit at Hammonton.

Earl Pauly left for aMrysville and La Porte where he will spend two weeks.

Fred H. Butz left Saturday for Sacramento.

GOLD PLATED ORE CAUSES EXCITEMENT HERE

Mr. Weaver, who operates the Weaver Auto Camp a few miles north of Yreka, was in town with very rich goldplated specimens of ore taken from his mine near by his camp. He has had a number of very good offers for his mine, but said, when in, that he had refused them all. If the ledge continues as rich as the spicemns would indicate, it alone will mean a real revival of the old mining days in this section.

The old Portugese mine on the Klamath River Seiad Valley is coming to the front as a rich producer. The chief engineer was in town and reports 18 men now working, and plan to double the crew a little later on. The men have been working rich old channels located the last few months and also the rich newer bars down the river. This property formerly was known as the Henry E. Woods mine.

W. H. Pierce of Walker has just sold an interest in the Gold Bug mine on McKinley Creek to C. W. Roper and George W. Lambert. This was a cash deal, and was secured at very reasonable figures. There are a number of such properties below Happy Camp and on down to Orleans Bar in the Independence Mining District, which are alive with miners and prospectors of all nationalities who are sniping, gofering, using sluice boxes and gold pans, taking out good quantities of gold. During the past month it is claimed that $1,500 were taken out on exposed bedrock conditions in the bottom. This is only one of the many places on the Klamath River being operated by miners and prospectors, and streams tributary to the Klamath. Mining capital is following up these prospectors and will take over the rich claims and will develop them with larger mining equipment to pay greater gold production.

A very fine sample of ore with gold sticking out was shown in the Yreka Journal office recently by local men who made a very rich find on Scott River which they now have located . How extensive the ledge is could not be determined at present, but a quick survey from the surface is said to be very promising.

Mr. Perkins formerly of Yreka but of late living at Orland, arrived during the past week and went out to Humbug mountains, where he owns a mine between the rich Eliza and the Treasure Mine.

Mrs. Hattie Mitchell and Henry Musgrave who have a lease on the well known Garrett Mine in the Humbugs, have ceased work for the present, as water is short, but will start up again this fall when the rains begin. They find very good ore.

The rich Old King Solomon Mine in the Salmon range is coming back into its own if promises of good ore hold out. Mr. Harry Thompson who now has the mine, has returned from New York City with capital to operate it. He has brought a caterpillar and compressor, and will first use them to build a road from the Black Bear mine to the King Solomon, which road he plans to complete in six weeks. He then intends to thoroughly prospect the mine with the above machinery and other on the ground. It it develops as he anticipates he will install a plant of 1500 tons capacity.

Hundreds of mines are now operating that have laid idle for years, and many of them have become producers indicating this section is coming again to the front as a rich mining district.—Yreka Journal.

MELTING GLACIER CAUSES MILKY COLORED WATER

The vacationists at Tuolumne Meadows on the Tioga Pass road have been curious about the usually crystal-clear water in the Lyell fork of the Tuolumne rive being an opaquewhilte, while, half a mile away, the Dana fork of the same river remains uncolored.

Unusually rapid melting of the Lyell glacier, which is releasing larger quantities of "glacial flour", during the recent hot spell, has brought this about. The light snowfalls last winter provided insufficient protective covering for the ice and consequently the warm, long summer is reducing the glacier more than is customary.

The Lyell Fork of the Tuolumne river is always white near its source at the foot of the Lyell glacier, the largest ice body in the California Sierra. In a normal season the glacial flour has settled so that the water is clear by the time it reaches Tuolumne Meadows.

SAN ANDREAS MINES ARE BEING TAKEN OVER

San Andreas, Calif., Sept. 11—George H. Ennis and Dr. D. G. Turnbull of Los Angeles have purchased from Joseph E. King of San Andreas a lease and bond on the Bence mine, located on Indian Creek nine miles southeast of San Andreas and owned by Mrs. Minnie Hingen. A two-drill compressor and machine drills are to be installed and development of the property resumed in the immediate future, it is learned. The property, equipped with a five-stamp mill, which is ready to operate, was originally worked in the early days of California. It has a 200-foot drift tunnel and a raise from the face thereof to the surface, a distance of 125 feet These workings varying in width from three to six feet and in value from $7 to $10 a ton in gold, it is stated.

Operating eight hours, the two-stamp mill on the Pine Nut mine, situated three miles north of Angels Camp and owned by R. E. Walsh, is reducing daily six tons of ore which is plating $8 a ton, it is learned. Concentrates recovered from the ore are beng accumulated for shipment. They assay from $87 to $1,260 a ton, it is stated. The ore is being extracted from a three and a half foot shoot recently exposed by a short crosscut on the 120-foot level of a shaft now down 135 feet and being continued to greater depth. Some of the ore shows free gold.

Fred Zurcher of Murphys has acquired, under lease and bond, from James Redding, Clarence and Geo. Kirkland, and Louis Malaspina three tracts of gold placer ground, aggregating 521 acres, two miles southeast of Vallecita.

SOULSBY BELL, MARCUS, LOST CHANNEL, WORKING

Sonora, Calif., Sept. 11—Fifteen inches of ore, averaging $40 a ton in gold, it is asserted, and yielding occasional bunches of "picture" rock showing large flakes of the yellow metal in liberal quantities, is being extracted on the bottom or 150-foot level of the two-compartment shaft on the Soulsby Bell at Soulsbyville, owned and being operated by A. P. Hoffschneider as a private project. The property adjoins on the north the old Soulsby mine, which in 40 years prior to 1916 produced $9,000,000 in gold from grassroots to a depth of 800 feet from orebodies that varied in width from six to 16 inches.

The new find, recently made, proves the downward continuation of an ore shoot which on the 100-foot level of the oSulsby Bell property shows an average width of 10 inches, has a length of 65 feet and yields mill head assays ranging from $10 to $158 a ton in gold. The new drift on the 150-foot level has for a length of 20 feet, with the average width and values above stated. The drift will be continued to fully determine the length of the orebody on the new level.

In the old Soulsby mine to the south the richest and largest orebodies were found between the 200 and 400-foot levels. Assuming that like conditions prevail in the Soulsby Bell mine, it is calculated that it should give the best account of itself from the 350 to the 550-foot horizons, since the collar of its shaft is 150 feet higher in elevation than that of the old Soulsby mine shaft.

Under a lease and bond recently obtained from Albert Baier, George Graff of Santa Barbara, Calif., has inaugurated development work on the Lost Channel gold placer property along the Stnislaus River, four miles north of Columbia. A force of miners is engaged in removing from 12 to 16 feet of overburden preliminary to working the underlying gravel. The overburden itself, it is asserted, is yielding encouraging pannings.

Less than six feet beneath the surface, Andrew Johnson has opened up ore assaying $25 a ton in gold on the Ellen claim on the north fork of the Tuolumne River, two miles south of Long Barn. He staked the property and began development work only about a month ago. The orebody being explored shows a width vearying fro meight inches to four feet, with its length yet to be determined.

E. J. Wendler is obtaining pleasing results in the exploration of his gold placer property nine miles northeast of Columbia. From surface open cuts being run he is extracting gravel yielding good pannings, it is stated.

On his Marcus property at Sawmill Flat, three miles east of Sonora E. B. Sutton is following with a drift tunnel ,now 300 feet in length, a quartz vein varying in wdth from six to eight inches that is yielding ore showing fre gold to the naked eye, it is stated.

BUILDERS OF CALIFORNIA

5 of the 8 largest clay products manufacturers in California are depositors in Bank of America

Clay, shaped on an Indian's thigh

MOLDED on the thighs of Indian workers and baked over charcoal fires, much of the original roofing tile on California's missions is well preserved after 150 years!

Modern builders, too, use tile and brick in many forms for permanence and beauty.

But the tedious methods of the *Padres* have given way to ingenious molds, special machinery and white-hot kilns.

And now 5,000 Californians are engaged in producing 30 million dollars' worth of clay products yearly.

This industry finds Bank of America's statewide service particularly adapted to its needs.

Large concerns simplify the handling of payrolls by depositing funds at branches near their plants.

After selected clays are mined and blended, weeks may elapse before finished products are ready for sale. Funds advanced by this Bank aid in financing production and distribution.

Another appreciated service is the assistance of branch managers in bringing about friendly business contacts throughout the state.

MEMBER FEDERAL RESERVE SYSTEM

The same advantages that have led 5 of the 8 largest clay products manufacturers in California to choose this Bank, are available to *you*—through a convenient Bank of America branch in your community.

GOLD SEEKERS CAME BY WAGON TRAIN OR SHIP

The following article on Pioneer Days was written by a real pioneer, Mrs. Mary K. Flint. She is 77 years of age and is vice president of the Mother's Club of San Diego before whom she read this paper at a meeting held to honor pioneer mothers this past May.—Editors Note.

By Mary K. Flint

When treasures of California were discovered, thousands rushed to its golden shores ,and the gluches were compelled to give up their treasures, long hidden from the eyes of man. Gold seekers arrived at the rate of 50,000 a week. There were three routes by which they might reach their Mecca. Those in the middle states preferred the overland way, as the shortest, although fraught with perils and hardships. Favorite starting places for the early covered wagon trains were St. Joseph and Independence, Mo.

Along the Atlantic, was by ship, around Cape Horn, and while a long drawn out route, was probably the most satisfactory. In the month of February, 1849, 150 ships set out for California by this route.

The third route was by ship to the isthmus of Panama, then by overland to the Pacific side and from there by boat to California.

Due to the uncertain schedule of boats, the gold seekers were forced to wait weeks and even months for a continuation of their passage. It is said that as high as $1000 was paid by a passenger to be transported on to California and with only acoil of rope for a berth.

A pioneer of Santa Barbara tells that when she arrived in 1866 there was not even a lighter to carry passengers ashore. They were placed in a small boat and rowed in as far as the breakers, then picked up by thehusky sailors and carried ashore.

In crossing the plains, a wagon train was composed of from 30 to 60 or more wagons, drawn by oxen or mules, and some had riding horses in addition. My parents, who came that way, left Indiana in February, 1852, ahd arrived in Nevada County, California, in September. Their wagon was drawn by a pair of oxen and my mother had a riding horse. They also led a cow which they filked. The milk was placed in a bucket and hung underneath the wagon, and when camp was reached they always found a pat of butter in it.

A leader or captain was elected for each train, Besides owning their outfit, the food supply for each person had to be 150 pounds of flour, 150 pounds of bacon, 25 of coffee, 50 of rice, 30 of sugar, keg of lard, same of butter, also dried fruit, crackers and other small articles Many started with their favorite plants.

In crossing the plains, a great deal of trouble was experienced in fording streams, and in spite of great care, a wagon often upset in midstream. They also had to guard against an attack of Indians. My parents said if they saw a band of Indians coming, they always stopped and quickly formed a hollow square with their wagons and prepared to defend themselves whether the Indians proved hostile or not.

You are all familiar with the history of the Donner Party. I see by the late papers that there are still two survivors. rMs. MacMayon living in San Francisco, and Mrs. Naomi Pikeschenk in Oregon. I remember seeing the latter before she married as she visited in our town. Mrs. L. C. Donner App aged 95 died recently. She was the daughter of George Donner, captain of the train, and was also a survivor.

One of the most famous drivers was Hank Monk. Immortalized by Mark Twain in his book "Roughing It". One of his passengers was Horace Greeley, who was stumping the west for the presidency. He was greatly alarmed at the speed Hank drove and threatened to have him arrested when they reached their destination. He changed his mind, however, and when the trip was over expressed his admiration for his driving, by presesting him with a tip of $20, which was refused. When Greeley insisted upon a reward, Hank asked for and was presented with Greeley's white beaver hat.

All the baggage taken on the stage was weighed and passengers paid all the way from $15 to $75 for it. An early breakfast before starting on these trips was a problem; a passenger described it as water bewitched with coffee, begrudged leathery beefsteak ,and saleratus corrected with fuolr .In hauling the supplies to the camps ,the pack train consisted of two wagons drawn by 20 mules. I want to add here, that in 1841 before the gold discovery there was not a vehicle in aCliforn ia except a rude cart. The wheels which were without tires ,were made by felling an oak tree and cutting it dow nto make a solid wheel, a foot thick at the rim. The hole for the axle would be 8 or 9 inches in diameter but after a few years would GOLD SEEKERS CAME CONTD .... increase to a foot. They were drawn by oxen. To lubricate hte axle, they used soap and always carried along a big pail of soap suds, and although used often, you could hear a cart coming a half a mile away by the squeaking, quite different from the vehicles of today.

The women shared all the perils. Their clothes were a handicap to them in their work for they rode on horse back in the most cumbersome petticoats. The sun bonnett was the best of their equipment. It covered their hair and protected the neck from the wind and sun and shaded the eyes. It was exquisitely graceful and the least gifted milliner could not make it inartistic.

SISKIYOU PLACER CLEAN UP BISCLOSES OLD COIN

E. Reese, who is placer mining in the Seiad mining distrct at Hoover Bar brought n a bottle of gold dust, which represented a two days clean-up. It contained $19.25 worth of gold.

Where he is working the gravel is shoveled into sluice boxes, the free gold collected and then panned out.

While cleaning bedrock Mr. Reese picked up a coin, lost years ago, that had become imbedded in a crevice along with tiny nuggets. It bore the date of 1863.

TRINITY PLACERS DIGS DITCH TO HYDRAULIC

The Trinity Placers, a corporation that took over the Bergin property, is digging a ditch three and onehalf miles long to bring water from Solider Creek to the placer ground.

Thirty men are employed under the superintendent, George D. Nordenholt. It was planned to complete the ditch by the middle of October, but there have been so many many forest fires the men have lost a good deal of time. The entire crew has been commandeered several differnt times to fight forest fires.

The ditch is eight feet wide at the top, three feet wide at the bottom and five feet deep. Only one gasoline shovel is employed.

It was planned to begin hydraulicking as soon as the rains set in and bring the creekwater up, but the delay incident to the forest fires puts off the completion of the ditch until after the rainy season opens.

ORE BUYER'S APPLICATION

In compliance with Section 2, Chapter 70, Statutes of 1925, approved April 15, 1925, amended 1927-1929 the undersigned, whose principal place of business is at 101 Pine Street, Nevada City, California, hereby gives notice that application has been made to the State Mineralogist for a license to carry on, within the State of California for the year ending December 31, 1931, the business of milling, sampling, concentrating, reducing, purchasing and receiving for sale ores, concentrates and amalgams bearing gold or silver, gold dust, gold and silver bullion, nuggets and specimens.

Protest may be made by any person to the issuing of such license at the office of the State Mineralogist, Ferry Building, San Francisco.

J. M. Hoff,
101 Pine St., Nevada City, Cal

NOTICE OF SALE OF REAL PROPERTY
IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA IN AND FOR THE COUNTY OF NEVADA.
IN THE MATTER OF THE ESTATE OF PATRICK RYAN, Deceased.

Notice is hereby given that the undersigned, C. S. Dwyer, administrator of the estate of Patrick Ryan, deceased, will sell at private sale to the highest bidder for cash, but subject to the confirmation by said superior court, on or after Saturday, the 5th day of September, 1931, at ten o'clock a. m., at the law office of Nilon, Hennessy & Kelly, in the Morgan and Powell building in Nevada City, California, the following described real property, to wit:

All the right, title, claim and estate of said Patrick Ryan, deceased, at the time of his death, and all the right, title, claim and interest of his estate in and to that certain lot or parcel of land situate and being in the county of Nevada, State of California, in the southwest quarter of the southeast quarter (SW¼ of SE¼) of section seven (7), in township sixteen (16) north, range nine (9) east, Mt. Diablo Meridian, and bounded and more particularly described as follow, to wit:

Beginning at a point near the easterly end of Silva Avenue and about six feet easterly from the easterly limits of the city of Nevada, at the corner of the fenced enclosure of Harrison Ogden, thence, FIRST COURSE, running northly by northeasterly along the easterly fence line of premises of J. T. Dunlap two hundred seventy-five (275) feet, more or less, to center of Little Deer Creek; thence SECOND COURSE, southeasterly along the center of Little Deer creek two hundred sixteen (216) feet, more or less, to a point opposite a fence corner on land herein described; thence, THIRD COURSE, southwesterly and nearly parrallel with first course herein, two hundred eighty-nine (289) feet, more or less, to the westerly fence line of enclosed premises of Harrison Odgen: thence FOURTH COURSE, northewesterly along said fence line of Harrison Odgen two hundred three (203) feet, more or less, to point of beginning, containing one and one-tenth acres ,more or less. Together with the dwellinghouse and other improvements thereon. Subject to a right of way of evelen (11) feet in width, along said first course, as limited by the two fence lines at present thereon, for the private use of Patrick Ryan, and his successors in interest and said J. T. Dunlap, and also a right of way of eleven (11) feet in width ,along said fourth course, as limited by the two fence lines at present thereon, for the private use of Patrick Ryan and his successors in interest, and said Harrison Ogden.

Bids will be received at the said law office of Nilon, Hennessy and Kelly up to ten o'clock a. m., on the 5th day of September 1931.

TERMS: Cash, lawful money of the United States, ten per cent to accompany bid and balance on confirmation of sale by said superior court; deed at expense of purchaser.

Dated: August 17th, 1931.

C. S. DWYER,
Administrator of the Estate of Patrick Ryan, Deceased.

"I sho' love to serve dinner where there's an electric range"

COOKING problems disappear in the home with an electric range. It's simply a matter of serving the food, deliciously cooked.

With the electric range you don't need to baste, stir, and watch over food. Just put your dinner in the oven, set the electric timer clock, and go away for an hour, or for all afternoon if you wish. When you return home you'll find a complete dinner baked to delicious perfection—unwatched—untended. Electric cooking is cool and clean. As for cost of electricity, that averages 1c a meal per person.

Come into our office and see the new electric ranges. Then select the model you prefer. Special terms make it easy.

LOCAL DEALERS SELL ELECTRIC RANGES.

FRENCH CORRAL NEWS

French Corral, Sept. 7th, 1931—A decided change in the wather today and surely the welcime rain will soin be given.

With the State Fair on, and Labor Day and Admission Day with us, multitudes are moving about and bring visitors to drop in at the old home places.

Professor J. R. Davis was a visitor in French Cirral during the week. He is again residing in his old home in San Juan. In mentioning this aged man, who by his years of service in giving instructions in the heavenly art of music, has endeared himself to all. A though comes of the monstrous idea of the state health officials of chloroforming the aged. We can not help wondering if in this age of "Progress" the ages old fifth commandment is entirely forgotten. We all pray God to prolong the life of our good old professor, who by his long years residence and of service seems indespensable to our San Juan Ridge.

Irene and Billy Browning who are staying with their grandmother and attending high school in Nevada City returned to their home in French Corral Friday evening to spend the week end.

Hary Browning returned from Pike City during the week.

Mr. and Mrs. R. W. McNamara of Tyler were the guests of relatives in French Corral Saturday and Sunday.

Mr. and Mrs. Ray Smith and two children of San Francisco are spending a vacation in French Corral.

Mr. and Mrs. Stepehen Kyle and Dr. Harold Clegg and Mrs. Clegg of Stockton enjoyed a camping trip at this place over the week end. Mr. Kyle is a native of Sweetland of which place his parents were plineer residents. His father held the office of Justice of the Peace in this township for many years. All Mr. Kyle's younger life was spent in Sweetland and Birchville, in which places he attended school and grew to young manhood. He was pleased to visit with old friends on the Ridge and was sorry to see the ravages of the late fire in Birchville. One of the houses that was consumed being their old home.

Miss Frances Moulton spent the week end with her parents in French Corral and with her sister, Mrs. Dudley in Nevada City.

Mr. and Mrs. Wm. Rees and Mr. and Mrs. Lewis and Miss Elizabeth Fowler all of San Francisco were Sunday visitors. Miss Fowler is a natve of Birchville from whch place her famly moved to San Francisco during her childhood. Mr. Rees is a native of San Juan, where his grandparents were pioneers of 1850. His wife althi not a native was a resident of French Corral and San Juan from her childhood. The home friends are always most happy to greet the ex-residents.

A. Browning and son, Clyde spent the week end at their home in French Corral.

Mrs. Elliott of Sweetland was in French Corral Sunday. She and her family hope to take up their residence in this place for the winter.

Miss V. Day of Nevada City was a Sunday visitir.

Mr. and Mrs. W. E. Moulton and daughter, Frances, spent Sunday with their daughter, Mrs. L. Dudley of Nevada City.

Mr. and Mrs. Harry Moynier and Mr. and Mrs. R. Harris and baby of Berkeley were Monday visitors at the home of Mrs. A. Browning. Mr. Moynier and Mr. Harris are French Corral natives and delight in coming back to the old home.

Our attention was called to the death of James Evans ,whi resided in French Corral many years ago. The family will be remembered, as their early residence here was attended by great sorrow. Their little three year old son, Jimmy, and only child accidently fell into some boiling hot water. His death resulted from this a few hours later. He was a general favorite and the entire community shared the sorrow of his parents. Mrs. Evans died in Oakland.

COULTERVILLE MINES IN MARIPOSA GAZETTE NOTES

The days of '49 are being reenacted at the old town of Coulterville, on the Mother Lode in Mariposa County.

About twenty placer miners are at work on Maxwell Creek between the back-waters at Horse Shoe Bend and Coulterville. Some are making good and nearly all are making a living. Some of these miners are using sluice boxes, some with rockers and all along the line you hear the rattle of the mining pan.

If you care to see a real old '49 Boom, just come over and take a trip down Maxwell Creek.

It is rumored that two of these prospectors have taken out over $45. in the last few days. Anyway, come along and see the real old placer boom.

Adolph Jacobs of Sonora has a small force of men prospecting the Barrett mine. Later Jacobs expects to start sinking a shaft on the property. This mine is about nine miles north of Coulterville.

There are about fifteen men employed at the Texas Hill mine. At present they are drifting on the vein and will, within the next few weeks, have enough ore to keep their mill in operation for some time.

This property is on the North Fork of the Merced river, about 14 miles East of Coulterville.

There is quite a force of men at the Argo mine and the work of sinking the shaft is progressing very satisfactorily. This mine is situated about 10½ miles north-east of Coulterville

The Burton mine, about eleven miles East of Coulterville, owned by Mr. Lydiksen, is showing some fine ore. Mr. Lydicksen has a small force of men doing development work.

Mr. Bradley and Mr. Osborn of Beverley Hills, were at Red Cloud a few days last week, looking over the different mines. They were well pleased with the showing at the Red Cloud, Bob McKee and Dexter mines. These mines are about nine miles East of Coulterville.

MRS. ELIZABETH HAMBLIN DIED IN SAN FRANCISCO

Mrs. Elizabeth C. Hamblin formerly Miss Lizzie Gallagher, passed away in San Francisco September 6th She was born in Gold Hill, Nevada but came to Nevada City when a small girl. She grew to womanhood here attending the local schools. She was a general favorite and her death will be received here with regret.

She is survived by her husband, Alton Hamblin, and two brothers, Neil and Hugh Gallagher. Mrs. Katherine Williamson of Nevada City is an aunt.

Burial took place in San Francisco.

—0—

SAN ANDREAS, ANGELS CAMP IN MINE ACTIVITY

San Andreas, Calif., Sept. 3—Exploration of the new rich placer gold deposit recently disclosed in the property of the Calaveras Central Gold Mining Company, near Angels Camp, is being attended by results highly gratifying to the management, it is officially stated. The main haulage crosscut which exposed the find has thus for penetrated the pay area more than 100 feet with a notable uniformity of values; the gravel averaging from $6 to $7 a ton, or $9 to $10,50 a cubic yard; it is learned from President Harry Sears.

At one point in the crosscut, 30 feet from the southwestern rim of the Central Hill ancient river channel; the exposure of which simultaneously revealed the new deposit; a raise has been run 21 feet from bedrock without defining the full thickness of the pay course and with but slight decline in the values in the top of the new working. Twenty feet beyond this raise a drift on bedrock has been started upstream or in a southeasterly direction. Gravel being extracted from it carries the same values as the crosscut itself.

A second drift has been started downstream or to the north to follow the southwestern rim This work is advancing from the main haulage crosscut in the bedrock and not in the gravel itself. It will, however, as work progresses; enter the pay course. Work accomplished in the crosscut and conditions present in other workings have given the management a definite idea of the width of the channel at the point of the new discovery; it being estimated at from 700 to 800 feet between the rims. A force of 22 miners; working in two shifts; is at present employed. With the labor-saving appliances, including an air-propelled mucking machine, installed by the management underground and on the surface, this force, in point of efficiency and amount of work accomplished, is equivalent to twice the number of men actually employed.

It is officially announced that the 100-ton mill and concentrating plant on the Easy Bird Mine, on the Mokelumne River. one mile north of Mokelumne Hill, idle for 15 years, will be again placed in operation within the next few days. To insure an adequate supply of water, a three-quarter mile pipe line from the river to the mill has just been completed and a 30,000 gallon daily capacity pump installed. A 60-horsepower electric hoist, replacing one of 25 horsepower, has been placed on the 285-foot three-compartment vertical shaft. For the immediate future ore for the mill will be drawn from the 200-foot level, according to Manager Todd B Elliott.

—0—

MINING ENGINEERS TO

(Continued From Page One)

Mine it will be necessary for you to be on hand at the Idaho shaft collar—not later than 8:00 o'clock in the morning, preferably 7:30 a. m. (This will necessitate arrival in Grass Valley on Friday, September 11th, so as to go underground Saturday morning).

Note: At the MURCHIE and HOGE Mines the cage capacity is limited to 4 men on one trip. Time 2:00-4:00 p. m., or as otherwise convenient.

Note: At the NORTH STAR the capacity is 18 persons one one trip down the shaft, and at the EMPIRE shaft 34 men can be taken down (time arrangement above).

4:00-6:00 p. m.,—Opportunity to inspect surface operations at IDAHO MARYLAND, MURCHIE, or HOGE Mines in nearby neighborhood.

6:30 p. m., — Empire Country Club—Stag Dinner and "Atmosphere". Cost per plate, $2.50, payable at Club entrance.

Geology of the Grass Valley District, by W. D. Johnston, Jr., of the United States Geological Survey, Washington, D. C.

Mining and Milling Operations at the Spanish Mine, Washington, Nevada County, California, by James collar—not later than 8:00 i'clock

Short talks on Mine Operation by:

Original Sixteen to One Mine, C. A. Bennett

Idaho-Marysland Mine, Errol MacBoyle.

Murchie Mine, O. McCraney.

Hoge Mine, O. E. Schiffner.

Gold Production of Nevada County, California, by F. M. Miller.

Mr. F. W. Bradley, prominent mining engineer of San Francisco will be acting chariman.

LEGAL NOTICE

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF NEVADA.

JOSEPHINE HAMPTON and ALBERT E. HAMPTON, her husband, Plaintiffs,

vs.

BERYL AYER DOW, CHARLES W. DOW, WILLIAM THOMAS, also known as WM. THOMAS, MARY THOMAS, CARROL MCA. THOMAS, JAMES CHAMPION, MARY J. CHAMPION, PEARL DEVORE, also known as HELENA P. DEVORE JOHN GREBBENS, AND ALSO ALL OTHER PERSONS UNKNOWN CLAIMING ANY RIGHT, TITLE, ESTATE, LIEN OR INTEREST IN THE REAL PROPERTY DESCRIBED IN THE COMPLAINT, ADVERSE TO PLAINTIFFS' OWNERSHIP, OR ANY CLOUD UPON PLAINTIFFS' TITLE THERETO, Defendants.

No. 5958

Action brought in the Superior Court of the State of California in and for the County of Nevada.

W. E. WRIGHT,

Attorney for Plaintiffs, Nevada City, California.

THE PEOPLE OF THE STATE OF CALIFORNIA SEND GREETINGS TO:

BERYL AYER DOW, CHARLES W .DOW, WILLIAM THOMAS, also known as WM. THOMAS, MARY THOMAS, CARROL MCA. THOMAS, JAMES CHAMPION, MARY J. CHAMPION, PEARL DEVORE, also known as HELENA P. DEVORE, JOHN GREBBENS, AND ALSO ALL OTHER PERSONS UNKNOWN CLAIMING ANY RIGHT, TITLE, ESTATE, LIEN OR INTEREST IN THE REAL PROPERTY DESCRIBED IN THE COMPLAINT ADVERSE TO PLAINTIFFS' OWNERSHIP, OR ANY CLOUD UPON PLAINTIFFS' TITLE THERETO, Defendants.

You and each of you are hereby directed to appear and answer the complaint in a naction entitled as above, brought against you in the Superior Court of the State of California, in and for the County of Nevada, within ten (10) days after the service upon you of this summons, if served within this county, or within thirty (30) days, if served elsewhere.

And you are hereby notified that unless you appear and answer as above required the said plaintiffs will take judgment against you for any money or damage demanded in the Complaint as arising upon contract or they will apply to the Court for any other relief demanded in the complaint.

The said action is brought by the above-named plaintiffs against the above-named defendants, and each of them, to quiet the plaintiffs' title to the land and real property described in the complaint on file in the said action and hereinafter particularly described, and to determine the adverse claims of the above named defendants, and each of them, and if all unknown persons to, and clouds upon the title to the said real prop- Grass Valley, as said lot and block erty and the whole thereof pursuant to the provisions of Sectionh 740, 750 and 751 of the Code of Civil Procedure of the State of California, and that said real property is situate, lying and being in the City of Grass Valley, County of Nevada, State of California, and is described as follows, to-wit:

All that portion of the Lot numbered Six (6) in Block numbered Five (5) of the Town (now City) of thence along the west boundary of are designated upon the official map of the said Town of Grass Valley made by Samuel Bethell in the year 1872, described as follows, assumed Magnetic Variation 18° 30' East, viz:

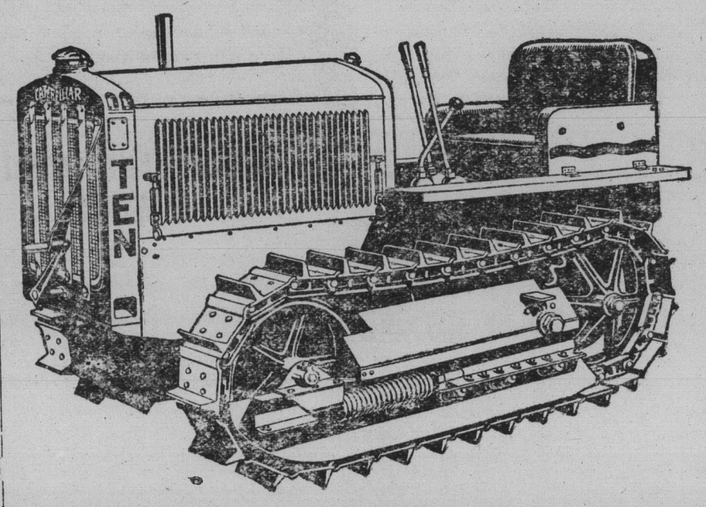

Commencing at the South East corner of the said Lot No. 6, thence South 79° 42' West along the southerly boundary of said Lot No. 6, a distance of 258 30|100 feet to the southwest corner of said Lot No. 6; thence along the west bounary of 44 78|100 feet; thence 47'; Wees 44 78|100 feet; thence North 24° 22' West 16 50|100 feet; thence North 79° 36' East 281 50|100 feet to a point on the East line of said Lot No. 6; thende along the East line of said Lot No. 6 South 10° 23' East 57 feet to the place or beginning, EXCEPTING AND RESERVING therefrom all lands and all rights conveyed by that certain deed, dated July 20th, 1909, executed by J. M. Thomas and Mary J. Champion to Lloyd P. Larue and recorded in the office of the County Recorded of the County of Nevada in Book "100" of Deeds, pages 377 et seq.

The object of said action is to obtain the judgment of the Court against said defendants and each one of them, known and unknown, as follows:

That all adverse claims to, and all clouds upon the title of plaintiff to said real property or any and every part thereof be determined by the judgment and decree of said court, and that it be decreed that plaintiffs are the sole owners in fee of said real property and the whole of said real property herein described, being the same real property lescribed in the complaint of plaintiff on file herein and that plaintiffs are in the possession of the property and entitled to the possession of said real property, and the whole thereof, and that the defendants have not, and that no one of said defendants, including the unknown persons made defendants herein, have any right, title, estate, lien or interest of any kind whatsoever, in or to the said real property or any part thereof, and that such defendants, and each and every one of them, known and unknown, be forever debarred, enjoined and restrained from making, or asserting any claim whatsoever in or to said real property, or any part thereof, adverse to plaintiffs, and that the title of the said plaintiffs in and to the said real property and the whole thereof be forever quieted and adjudged good and valid, and for such other and further additional order, judgment, decree and general relief as is meet and proper in the premises, and for costs of suit.

Given under my hand and the seal of the Superior Court of the State of California in and for the County of Nevada, this 21st day of July, 1931.

R. N. McCORMACK,
Clerk of Said Superior Court.

Caterpillar tractors in MINES and quarries have the same marvelous efficiency and ability to cut costs as they have in other lines of work.

Road builders, County, State, and Government officials, as well as farmers use "CATERPILLAR" equipment when ever they investigate cost, service, etc. Look over any big job where power is needed. You'll find a "CATERPILLAR" on the job.

Ask us for the very interesting folder we have on MINES, QUARRIES, and CLAY PITS. It's yours for the asking.

DR. MILES' Liquid NERVINE

All Wrought Up Over Nothing

Didn't sleep last night; too much work; the children are fretful; the Boss is cranky; Mrs. DeVere didn't invite you to her party.

Ordinarily you don't mind any of these things, but today they are simply unbearable. You are nervous, that's why.

Did you ever try Dr. Miles' Nervine? Just two teaspoonfuls in a half glass of water will quiet your over-taxed nerves and bring you a feeling of calm and peace.

Dr. Miles' Nervine is now made in two forms—Liquid and Effervescent Tablet. Both are the same therapeutically.

At all Drug Stores. Price $1.00

MRS. NANNIE SIMMONS PASSED AWAY SUNDAY

Funeral services were held Wednesday for Mrs. Nannie Simmons, who passed away late Sunday afternoon. She survived her late husband by just two weeks.

Beautiful floral offerings of love and esteem were placed about the casket. A beautiful sermon in memory of Mrs. Simmons was delivered by Rev. H. H. Buckner.

Interment was made in Pine Grove cemetery beside her late husband. W. R. Jefford and Son had charge of funeral arrangements.

BEATRICE CODFREY WEDS SANTA MONICA MAN

Miss Beatrice Godfrey, daughter of Mrs. Annie Godfrey, and the late Anthony Godfrey, was united in marriage to Charles Doescher, of Santa Monica, at Reno last Saturday evening.

The bride is a native of Nevada City, graduating from the local high school, and Healds Business college. She has recently been in the employ of the State Motor Vehicle Department at Sacramento. Her pleasing disposition has made her many friends here and in Sacramento.

Mr. Doescher is a native of Santa Monica and is in the employ of the Southern Pacific Company.

They will make their home in Sacramento. The best wishes of their many friends go with them in their new life.

KEEN INTEREST SHOWN IN P. T. ASSOCIATION

The interest in the Nevada City Parent Teachers Association is growing rapidly, as was witnessed by the meeting Monday night by the large crowd in attendance. 21 new members joined.

Mrs. Geo. E. Perry, president, presided and special features were songs by the Misses Hansens accompanied by a string instrument, and a talk by Miss Emily Davis, school nurse on the well child and the contrast to the child suffering from illness or malnutrition. Miss Nightengale, chairman of the library committee, reported that things were progressing very rapidly in that line and she was praised for her effort and accomplishment in so short a time.

The Parent Teacher Association have many plans for a busy and useful winter. The regular meetings will be held on the firsa Friday of each month at 3 P. M. at the grammar school, but the president is at liberty to call special meetings, and when there is so much being planned it is probable that the meetings will be held more often.

Interested persons as well as parents and teachers are urged to join and help carry on the good work that is being planned.

P. T. A. FOOD SALE

The P. T. A. will have a food sale next Wednesday at the Richards building on Pine Street, commencing at 10 a. m. Pies, Cakes, Salads, and real Italian Spakhetti to tempt the appetite.

GRAMMAR SCHOOL LIBRARY

Twenty splendid books have been brought in and others are promised. Mrs. Louie Kopp has kindly donated a large round table which will be cut down for a reading table for small children.

County Assessor J. M. Hammill left recently to spend his vacation in the bay region with his wife.

GUERNSEY DAIRY BRINGS HOME THE BACON

The milk and cream from the Bret Harte Guernsey Dairy of this city was adjudged the best natural market milk and cream at the contest put on at the State Fair this last week. According to the State Inspector this was the largest number of exhibitors of milk ever put on at the State Fair.

The score of the Guernsey Dairy is as follows:

Bacteria 34.9, perfect score being 35; Fat 15.0 and Solids, not fat 15.0.

This is a splendid record for Mr. Johnson's dairy herd and should create a great demand for his rich, wholesome cream and milk. This is quite an honor when you consider that he made entries against the whole dairy district of the state of California.

LIKES FILEINGS OF COUNTY RECORDERS OFFICE

The Nugget, Nevada City, Calif.,

Sirs:—Enclosed find check to cover my subscription to November first, 1931.

I enjoy reading your live and progressive little paper very much. I note however you do not give as much space as formerly to publish the fileings of the County Recorder's office as formerly. I have heard several subscribers speak of it.

Wishing your little paper continued success, I am,

Theo. A. Kohler.

HONEYCOMB MINE LOSES COMPRESSOR HOUSE BY FIRE

Word has come to Nevada City that the compressor house at the Honeycomb mine, near Camptonville was burned last Thursday morning. The fire was of unknown origin and will mean the closing down of the mine until a new building can be built and new machinery bought.

It is hope the delay will not be long as every mine working means more men employed and progress for our county.

This property is owned and operated by Frank Pendola.

Mrs. F. H. Bernier and sister of New Orleans visited with Crarles Corey for about ten days. While here they motored to Lakes Tahoe and Donner. Mr. Corey met Mrs. Bernier during the world war and this is their first meeting in 12 years.

Fostoria's "Versailles" in rich, golden, scintillating "Topaz"

Completa Glass Service for the table is now quite correct and exceedingly popular. Fistoria's eVrsailles eSrvice can be had in pieces necessary for all occasions. Inspect this wealth of beautiful Topaz glass for it will make possible a correct table that simply breathes gracious hospitality. Fostoria is thoroughly practical, for both hot and cold foods can be served upon it. tI is open stock andmoderately priced.

HIDDEN MINE IS FOUND IN THE AMADOR AREA

Sinking operations are progressing at the Pathfinder mine near Jackson. A depth of 250 feet has now been reached and the operators expect to reach the 300-foot level by the first of the month.

It is planned to have a station at the 300-foot level. The mine is located on the Courtright property.

Sinking operations are underway at the Argonaut mine from the 5700 foot level.

In the Volcano District, a claim on the Blakely property is being operated by Messrs. Stocker, Jack Snyder and Hall.

The property was recently leased from the Blakely family. Exploring the property for a location to sink a shaft, the lessees selected a depression in the ground. At a short depth a cedar bulkhead was discovered. This was removed and a hidden shaft was revealed. The men explored further and much to their amazement another bulkhead was found. Under the second bulkhead a ledge was discovered. At present drifting on the ledge is underway.

The shaft is about 80 feet deep.

The shaft must have been sunk in the early days as old timers do not recall the shaft.

The present operators have erected a small stamp mill on the property.

ELKS TO HOLD FIRST MEETING FRIDAY NIGHT

The first meeting of Nevada City Lodge of Elks will be held tonight, after a two month's vacation.

At this meeting plans will be laid out for the fall and winter season. Among these activities are, bowling, the semi-monthly dinners, and the bridge tournaments that have proved such a big attraction during the past two years.

New applications will be received and a number of initiations will be performed by the officers during the next few weeks.

Exalted Ruler John J. Fortier will preside and the officers of the lodge are anxious that all members be present so that the activities will get a good start for the season.

PUBLIC RECEPTION TO BE HELD FOR THE TEACHERS

The reception for the teachers will be held next Friday night, the 18th, at Elks Hall, under the auspices of the Parent Teachers Association, assisted by a committee frim the Womans Civic Improvement Club.

COURT HOUSE RECORDS

Superior Judge Raglan Tuttle has many matters to come up after his vacation. The first session started last Friday and is as follows:

Golden Center of Grass Valley vs. Valley Mining Company—Trial on default.

LouisNonneman vs. River Placers Inc.,—Order to show cause.

Eleanor Placer Mining Company vs. William B. Oliver et al,—Demurrer and motion to strike out.

Louis Nonneman vs. River Placers Inc.,—Demurrer.

C. H. Munro vs. Mary E. Langley etal,— Demurrer and motiin to strike out.

Est. Henry R. Hoskin, deceased—Petition for probate of will.

In the Matter of the Termination of the Life Estate of Columbine E.

Est. Cora E. Wood, deceased—Petition for probate of will.

Thomas M. Harris vs. Grass Valley Gold Mine—Demurrer.

Est. Bradbury Perkins, deceased—First and final account.

Est. Alice E. Smith, deceased—Final account and petition for distribution.

In re adoption Patricia Bessie Bette—Petition.

Est. Hugh Murchie, deceased—Petition for letters of administration and to set aside estate.

Est. John Curnow, deceased—Petition for probate of will.

Est. Minnie E. Rielly, deceased—Petition for letters of administration

Est. Henry C. Schroeder, deceased—Petition for probate of will.

NO ACCIDENTS TO MAR HAPPY VISITS OF WEEK END

Throngs of visitors and tourists spent the week end in Nevada City and County over the holidays. The National Hotel turned away many while Schriebers and the New York Hotel were filled to capacity.

Late Saturday night and during the morning hours of Sunday hundreds of automobiles, some with camp outfits and others without, passed through the city to the upper country, some fishing and others just spending the holidays in the mountains. Monday they began returning, although many remained over until Wednesday as public schools around the bay region were closed until Thursday and many business houses gave their employees Tuesday off, in addition to the regular Admission Day holidays.

Of all the visitors over the week end and heavy traffic on the roads it was noticeable that care was exercised in driving and no automobile accidents were noted.
